How the Word Is Passed Dec 28 2020 This compelling “important and timely” (Drew Faust, *Harvard Magazine*) #1 New York Times bestseller examines the legacy of slavery in America—and how both history and memory continue to shape our everyday lives. Beginning in his hometown of New Orleans, Clint Smith leads the reader on an unforgettable tour of monuments and landmarks—those that are honest about the past and those that are not—that offer an intergenerational story of how slavery has been central in shaping our nation's collective history, and ourselves. It is the story of the Monticello Plantation in Virginia, the estate where Thomas Jefferson wrote letters espousing the urgent need for liberty while enslaving more than four hundred people. It is the story of the Whitney Plantation, one of the only former plantations devoted to preserving the experience of the enslaved people whose lives and work sustained it. It is the story of Angola, a former plantation-turned-maximum-security prison in Louisiana that is filled with Black men who work across the 18,000-acre land for virtually no pay. And it is the story of Blandford Cemetery, the final resting place of tens of thousands of Confederate soldiers. A deeply researched and transporting exploration of the legacy of slavery and its imprint on centuries of American history, *How the Word Is Passed* illustrates how some of our country's most essential stories are hidden in plain view—whether in places we might drive by on our way to work, holidays such as Juneteenth, or entire neighborhoods like downtown Manhattan, where the brutal history of the trade in enslaved men, women, and children has been deeply imprinted. Informed by scholarship and brought to life by the story of people living today, Smith's debut work of nonfiction is a landmark of reflection and insight that offers a new understanding of the hopeful role that memory and history can play in making sense of our country and how it has

come to be. Winner of the National Book Critics Circle Award for Nonfiction Winner of the Stowe Prize Winner of 2022 Hillman Prize for Book Journalism A New York Times 10 Best Books of 2021

She's packed this book with little bursts of activity – spruce, chop, nurture, fuss or tackle a larger project – that can all be managed in five-minute forays. Spruce the lawn by raking fallen leaves in October, or fuss with your snail defences in May. Nurture your hardy annual seedlings in December, and chop your hydrangeas in March. Missing Mike Nov 26 2020 He's a rescue, a mutt. Maybe there's a little golden retriever in him, although he's not exactly pretty. He's had a run-in with coyotes and he's missing an eye. But Mike is eleven-year-old Cara Donovan's dog, and they love each other absolutely. Usually her pet follows Cara everywhere, but on the day the family first smells smoke in the air, Mike becomes anxious. Pine Grove is in the path of a wildfire, and the family is ordered to evacuate. In the ensuing chaos, Mike runs off. And then the unthinkable happens; there is no time to search for Mike. They are forced to leave him behind. Shocked and devastated, Cara watches helplessly as the family drives through a nightmare, with burning debris falling from the sky and wild animals fleeing for their lives. Once in the city far from the burn zone, the Donovans are housed with a volunteer host family. Jewel, the hosts' daughter, is nice, but Cara can only think about what she may have lost. What will happen if nothing is left? But as she reflects on what "home" means to her, Cara knows only one thing. She is not going to lose Mike. She will do what it takes to find him, even if it means going back to Pine Grove on her own. With her signature style combining simplicity and lyricism, the author of Root Beer Candy and Other Miracles and Macy McMillan and the Rainbow Goddess tells an uplifting story of love and loss. And she shows how one girl's stressful journey eventually leads her to an unexpected place, and a new definition of home.

The Summer My Father Was Ten Apr 12 2022 In this touching book with a moral message, a child retells the story of her father's youth when an impromptu baseball game gets out of hand and some unthinking boys end up destroying an old man's garden. Every year my father and I plant a garden. Tomatoes, peppers, onions, marigold, and zinnias grow in neat, straight rows...and every spring my father tells me about Mr. Bellavista and the summer my father was ten. That was the summer a boy lost a baseball under a tomato plant in Mr. Bellavista's garden. And someone tossed a tomato back instead of the baseball. A lively battle took place, which seemed like great fun at the time, but in the end, Mr. Bellavista's garden was ruined. In a touching story of one boy's efforts to make amends, we see the rebuilding of a garden and the forming of a relationship across generations. With luminous, beautifully detailed watercolors, this excellent book for the whole family shows how we can turn our mistakes into some of life's greatest moments.

Spirit of the Garden Oct 06 2021 Gardens can be formal or wild, serene or ostentatious, native or exotic, colourful or monochrome --according to Trisha Dixon, if we like a person, we will probably like their garden. In a series of written reflections, interwoven with her evocative, painterly photographs, Trisha explores the relationship that exists between ourselves, our gardens and the natural landscape. Beyond the design and the plants, there is the feel of the garden, which captures the heart from the moment you enter a landscape and stays with you long after you have left. In a chapter on Gardens of the Mind, Trisha explores how artists, thinkers and writers have acknowledged and found value in the spirit of gardens and landscapes. Socrates found truth and beauty beyond Athens' city walls in a sacred grove. Closer to home, Jorn Utzon, designer of Sydney's Opera House sought inspiration and solace in a sandstone beach cave and Arthur Boyd experienced the Shoalhaven as a Wagnerian opera or a Mozart symphony. In *Our Ancient Land*, Trisha writes about landscapes full of stories, songlines and tracks. She welcomes the shift away from an Anglocentric approach to landscape design to one that shows an intimate engagement with the spirit of place, an acknowledgement of the Aboriginal history and mythology embedded in the land. This is not just to be found in the ancient heart of the country. In Melbourne's Royal Park, for example, bounded by noisy traffic and high-rise buildings, landscape designer Gordon Ford has created a bush pool that you'd feel fortunate to find in the interior of the Kimberley. Her message is the need to understand and respect the environment in our garden making. By approaching nature with humility, rather than a desire to control it, we can make our gardens places of beauty and peace, which nurture body and soul. She explains different approaches to garden design, exploring the teachings of landscape architects and designers of renown. And she frames this in the context of a harsh and changing climate that we need to embrace. Full-colour photographs show the golden glow of seed heads, a Eucalypt reflected in a still pool, magnificent anemones and mossy outcrops in an escarpment garden on Sydney's Northern Beaches. Here is Annie Snodgrass' Jilba garden in Young, bursting with a Mediterranean palette of greens, purples and white. Here is Philip Cox's South Coast retreat, showing a total harmony of landscape and

understated, rustic architecture.

Wild about Weeds Jan 29 2021 Wild about Weeds is the must-have guide for modern gardeners that explains how to tame and nurture the most challenging of plants. Not all weeds are ugly uncontrollable brutes. Yes, they can be difficult and intimidating, but by learning how to grow weeds in unexpected ways you will become a better gardener with a more interesting garden. This book profiles over 50 weeds and shows you surprising ways to grow them, no matter what your garden type: from borders to boxes, sunny to shady, poor soil to rich, tropical to formal, Japanese-style to prairies. With interviews, tips and advice from celebrated gardeners, learn how to let weeds flourish without taking control. Gardening Book of the Year 2019 - The Times Best Gardening Reads of 2019 - Daily Mail Best Gardening Books of the Year - Gardens Illustrated Top Garden Books of 2019 - The English Garden "This well-argued advocacy for rebel plants shows why we should all be growing a few in our gardens." Gardens Illustrated "In this excellent guide, garden designer Wallington rehabilitates the lowly weed...Wallington's humor ("part of me - the rebellious, weed-like part! - likes weeds purely because people tell me not to") and passion for his subject shine through on every page. This new spin on an old subject will encourage both new and seasoned gardeners to look at what's already growing in their garden (and what could be) with fresh eyes." Publishers Weekly "A lovely, practical gardening book that celebrates the beauty and ecological value of the gorgeous plants that we have been silly enough to overlook. Gardens with native 'weeds' are quintessentially English, tangled and tousled, and self-deprecating. Yet they burst with life, for these are plants that have evolved alongside our pollinators such as bees, and other insects that offer themselves to birds. Wild about Weeds sensibly distinguishes between the under-appreciated plants that conjure life into our gardens, and those potentially invasive species that are undesirable for good reason." Jonathan Drori CBE, author of *Around the World in 80 Trees*
