Boys' Life is the official youth magazine for the Boy Scouts of America. Published since 1911, it contains a proven mix of news, nature, sports, history, fiction, science, comics, and Scouting. As a leading authority of on-mountain safety since 1938, the nonprofit National Ski Patrol has dedicated itself to serving the public and the outdoor recreation industry by providing education, and accreditation to emergency care and safety services providers. Their core educational workbook, Mountain Travel & Rescue (first published in 1995), was researched, written, and reviewed by volunteer members and experts from all over the country,

and is designed to help ski patrollers train, rescue, and survive in mountain environments, at resorts, in the backcountry, and at any time of year. In addition to new illustrations, this edition offers significantly expanded lesson sections, a new backcountry medicine section, and more. Mountain Travel & Rescue: National Ski Patrol's Manual for Mountain Rescue is organized into four major sections: Survival, Travel, Backcountry Considerations, and Search and Rescue. It includes extensive appendixes, including medical equipment lists, a questionnaire, and a glossary. The National Ski Patrol still adheres to its founding creed of "Service and Safety." Headquartered in Lakewood, Colorado, this member-driven professional organization is dedicated to providing education and accreditation to emergency care and safety service providers. Their members work on behalf of local ski and snowboard areas to improve the overall experience for outdoor recreationalists. LRRPs

had to be the best. Anything less meant certain death. When Ed Emanuel was handpicked for the first African American special operations LRRP team in Vietnam, he knew his six-man team couldn't have asked for a tougher proving ground than Cu Chi in the summer of 1968. Home to the largest Viet cong tunnel complex in Vietnam, Cu Chi was the deadly heart of the enemy's stronghold in Tay Ninh Province. Team 2/6 of Company F, 51st Infantry, was quickly dubbed the Soul Patrol, a gimmicky label that belied the true depth of their courage. Stark and compelling, Emanuel's account provides an unforgettable look at the horror and the heroism that became the daily fare of LRRPs in Vietnam. Every mission was a tightrope walk between life and death as Emanuel's team penetrated NVA bases, sidestepped lethal booby traps, or found themselves ambushed and forced to fight their way back to the LZ to survive. Emanuel's gripping memoir is an enduring testament to the valor of all American LRRPs, who courageously

risked their lives so that others might be free. This is a maintenance & repair manual for the Nissan Patrol. Understand dog behavior to work with, not against, your K9's instincts. Intended for the use of sheriffs' departments, this manual presents methods of addressing implementation

issues related to two crucial resource allocation topics: (1) the total number of police officers required to provide an acceptable level of traffic services, and (2) how a specified total number of officers should be allocated by geographic regions or time periods to produce the maximum agency productivity. The guidelines are intended for use as a reference document for both first-time and experienced users of the accompanying procedure manual. The procedures rely on both historical data and user-supplied performance objectives. Individual sections provide an overview of the methodology used in determining staffing levels and allocations and explain general implementation strategies, issues related to data definition and collection, and the recommended data collection and implementation procedure. Appendixes list data and performance information required for each of the nine worksheets in the accompanying manual, a glossary of terms and notation used in the manual, a detailed example, and derivations

of all the important formulas.
